

A high-angle photograph of a rocky coastline at low tide. The foreground is dominated by dark, wet, and textured rocks. Several tide pools of varying sizes are scattered across the rocks, reflecting the sky. In the lower right, a person with long dark hair, wearing a bright yellow shirt, is sitting in a large, circular tide pool. Their hands are in the water, creating concentric ripples that spread outwards. The background shows the ocean with gentle waves breaking against the shore under a bright, slightly overcast sky. The overall mood is serene and contemplative.

DIVE INTO TELDE

13 Playa de La Restinga

12 Playa de San Borondón

11 Playa de Palos

10 Playa de La Garita

9 Playa Hoya del Pozo

8 Playa del Hombre

7 Taliarte

6 Playa de Melenara

5 Charca Pérez

4 Playa de Salinetas

3 Playa de Aguadulce

2 Playa de Tufia

1 Playa de Ojos de Garza

Feel the salt on the sea
breeze and sunlight on
your skin.

Come to discover the
Coast of Telde!

PLAYA OJOS DE GARZA

This hidden corner of the Telde coast, unique for its houses on the beach, preserves the charm of the past and makes you live a different experience.

PLAYA DE TUFIA

Sitting on an old volcanic cone, it is perfect for the practising of scuba diving. The beautiful network of its narrow streets and white houses will enchant you.

PLAYA DE AGUADULCE

Its gold sand and crystal-clear waters - suitable for scuba diving - are some of the attractions of this little-known virgin beach.

PLAYA DE SALINETAS

Famous for its family atmosphere, is ideal for swimming. When the tide goes out the popular Charca de Salinetas is formed, a small natural swimming pool that is perfect for children.

PLAYA DE MELENARA

Blue flag all the year. Here you can see the Neptuno's sculpture, god of the sea. This is the favorite beach for most of the residents for its high quality services. It will surprise you!

CHARCA PÉREZ

In this natural pool you can enjoy the sea in a cozy and relaxing environment during the low tide. It is located in Clavellinas.

TALIARTE

If you like to bathe among rocks, this is the perfect place for you. In this area you will discover corners where you can dive into the sea and sunbathe.

PLAYA DEL HOMBRE

Sports lovers find an outdoor gym in this privileged place. Its heavy swell and its wonderful right breaking wave turn this beach into one of the best beaches for surfing on Gran Canaria.

PLAYA HOYA DEL POZO

Blue sea, dark sand, green vegetation and history. On this beach, full of contrasts, you can even admire the remains of an ancient military bunker built to protect the island during The Second World War.

PLAYA DE LA GARITA

Near this excellent beach, you can discover "The Blowhole", which is a geological formation. Its name has been given by the hiss the water produces. Be careful and get your camera ready, this blow hole will amaze your senses.

PLAYA DE PALOS

Bodyboarding and good weather go hand in hand in this cozy spot. An ideal place, like so many on the Telde coast, to fish some of the species that become delicacies in the restaurants.

PLAYA SAN BORONDÓN

Immerse yourself in a paradise of waves. It is ideal for the practice of surfing surrounded by a cliff of reddish colors that stand out at dawn.

PLAYA LA RESTINGA

Do you love kitesurf?
This windy beach is
waiting for you!

DIVING AREAS

MUELLE DE TALIARTE

Staying safe from currents, with entrance from land and with a depth of 26,25 feet. Perfect for the immersion at night or during the day.

BAJA DE GANDO

Only for expert divers, due to its strong currents. Among its wrecks, the Alfonso XII stands out, a ship sunk at the end of the 19th Century, with 10 boxes of gold coins for the payment of Spanish soldiers in Cuba.

BAHÍA DE MELENARA

It would point at "El Coreano", sunk at a depth of about 98,43 feet at the entrance to the Marina of Taliarte. It is easily accessible.

AGUADULCE

Immersion from land, with a depth of 49,21 feet, we can find some fish like Canary damsels and stingrays.

JINÁMAR

With a cave that is usually full of stingrays and spiny butterfly rays. Going by boat is ideal, although it can also be accessed from land.

TUFIA

Immersion from land, with a depth of 75,46 feet, there is abundance of yellowfin croakers and stingrays. Great variety of marine life.
